

# VersiControl™ RGB Zone Knob Controller

## Features

- 12-24V DC operation
- Four zone controller eliminates additional switching and consolidates control into a single knob.
- Single knob controls all four zones together ensuring the light in all zones matches
- Three control options including, color selection, dimming and speed of color fade provide endless customization
- Finish options include silver or black anodized
- Single RGB wire allows for simple installation, while still maintaining four separate zones
- Smart FET protection on module prevents damage to the controller in the event of a power surge or installation error

## Product Details

Housing Material	Aluminum
Voltage	12-24V DC
Current	Max: 20A, 8A Max per zone
Over Current Protection	Power Line: 25A In-line Fuse RGB wires: Smart FET in module
IP Rating	IP55

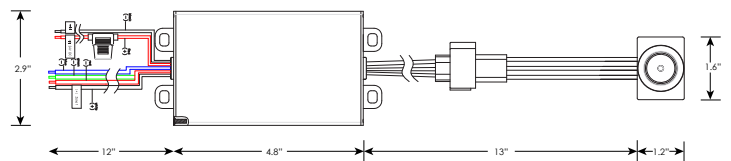

## Specification Guide

### Sample Part #: 21090A-ST-00-00

Base Part .....  
 Finish Option (XX) .....  
 Wire Length (LL) .....  
 Start Up Power Option (SS) .....

Base Part #	Finish Option (XX)	Wire Length (LL)	Start Up Power Option (SS)
21090A	ST - Silver Anodized w/ text BT - Black Anodized w/ text	00 - 8.5" 01 - 22.5"	00 - Power Up OFF 01 - Power Up ON
