

# VersiColor™ Simplified Bluetooth Controller

## Features

- Utilizes the ITC app to control the color, dimming, and fade of the lights
- Competitive price makes the incorporation of RGB lighting into entry level units more achievable.
- Compatible with all ITC VersiColor RGB/RGBW products
- Simple wiring instructions included on the controller allow for easy installation
- Available with or without DT connectors for quick connections with units' wiring harness

## Product Details:

Voltage	12-24V DC
Wattage	144W @ 12V DC
Current	12A @12V DC
No Load Current	10mA @ 12V
Bluetooth Version	5.2
IP Rating	IP66
Wire Gauge	RGB Wires: 16 AWG Input Wires: 14 AWG
Wire Length	12"
Operating Temp.	-20F to +140F
Listing	Bluetooth Certified; FCC
Other Important Notes	Reverse Polarity Protected RGBW Lines are Short Circuit Protected

## Specification Guide

### Sample Part #: 22105-RGBW-XX

Simplified Bluetooth Version .....  
 RGB or RGBW .....  
 Connectors .....

Base Part #	Color Options	Connectors
22105	RGB or RGBW	NONE DT=DT Connectors
