

Modular Docking Light

Features

- Simple back nut design allows for installation as stand-alone product or incorporation into custom shrouds
- Thermal protection circuit prevents overheating and damage to the electronics
- Available in 6500K
- Corrosion resistant high polished 304 stainless steel or powder coat black
- Small diameter requires a minimal hole cut out

Part Numbers

| | |
|----------|---------------------|
| 69394 | 304 Stainless Steel |
| 69394-BK | Black Powder Coat |

Product Details

| | |
|------------------|----------------------------|
| Housing Material | Anodized Aluminum |
| Lens Material | Clear Polycarbonate |
| Bezel Material | 304SS or Black Powder Coat |
| Voltage | 10-14V DC |
| Wattage | 7W |
| Current | 0.6A @12v |
| Lumens | 750LM @ 6500K |
| IP Rating | IP67 |
| Wire Gauge | 18AWG |
| Wire Length | 13" |
| Operating Temp. | -4°F to +122°F |
