

Beam Image Projection Light

Features

- Light beam projects logos onto ground or other surfaces.
- Lights can be customized with unique logos or graphics.
- Driver rated for interior or exterior installation.
- Efficient LED technology provides low wattage/amp draw.
- To maintain the detail of the logo, the light should be mounted pointing straight down approximately 10-12" above the floor. Negative images produce the highest quality.

Specification Guide:

Part #: 69810-XX

Base Part
