Engineered compact design of polycarbonate end caps provides exceptional strength without adding "bulky" appearance.

Interior structure designed for exceptional strength & safety.

Fastener will not twist off, unlike other products using a nut.

Padded and textured EVA grip handle provides firm, comfortable gripping surface without sliding down assist handle tube.

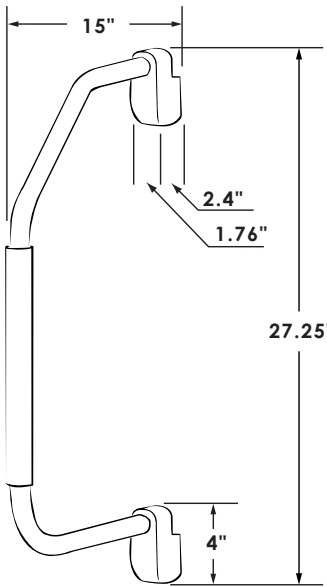

Shape allows for 3 positions; 2 stowing options & 1 open position.

Designed with strength in mind while maintaining a sleek, compact shape.

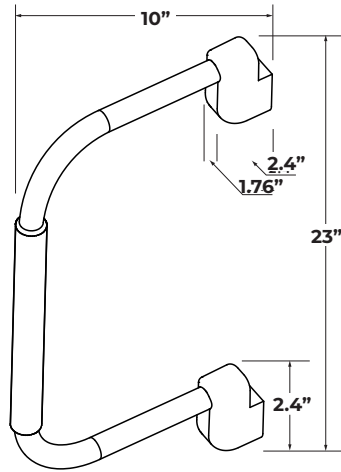

Optional mounting screw holes add exceptional strength & stability.

Assist handle available in white, black and faux stainless finish.

No exposed fasteners on assist handle end caps.
