

CUSTOM BENT-METAL ASSIST HANDLES

Assist handles are a requirement in all RV entrances, but off-the-shelf designs don't always fit into highly designed interiors. We're ready to work with you to develop a custom shape and finish to complement your needs. Our engineering team has extensive experience in designing and developing sleek, functional handles in a variety of materials, finishes, and shapes. With our background in lighting we can also incorporate additional lit features to make any design shine.

MOQ OF 500
