

# Rail Mount Table System

## Features

- The rail mount is a clamp system that uses the open fence as a base to securely support an additional table location
- Once installed the durable mount stays in place, the base adaptor fits into the base attached to the table and clicks on and off as needed
- Clamp system accommodates several styles of pontoon open fences/rails with protective pad for no scratch installation
- Use with ITC table products

## Specification Guide

Part #: FMTB-B3

## Product Details

Housing Material	Polypropylene Plastic and Anodized Aluminum
UV Stable	Yes
