VersiControl™ Quickstart Guide

How To Control Your VersiColor™ RGB(W) Lighting

INITIAL SETUP - FINDING DEVICES

Upon starting the VersiControl App for the first time, you will encounter a series of set-up screens to find and connect to your control devices.

Tap 'Find Devices' to initialize search

The app will begin scanning for on board devices and display the available devices once located

Select 'Tap to claim!' to connect app to the device

During initial set-up, you'll be asked to set a passcode to claim the device

Tap 'Set Passcode' to set up a passcode

NOTE: Be sure to store the passcode in a secure place for future reference

Once you've successfully set a passcode you'll receive a 'Success!' notification

Tap 'Go to Dashboard' to leave the initial set-up screen and move to the app dashboard
