

Engine Room Light

Features

- Ignition protected, low profile alternative to traditional engine room lights
- Clear silicone housing provides higher light output for a bright working illumination
- Available in three lengths in a cool white (6300K) color temperature
- Standard IP66 rated for damp and wet locations
- Explosive Atmosphere Exposure Test and a High Temperature Operating Test per the ISO 8846 and SAE J1171 requirements

Product Details

Voltage	10-14V DC
Wattage	2.3W/Ft
Current	0.2A/Ft
Lumens	390LM/Ft
Color Temp.	6300K
Wire Gauge	18AWG
IP Rating	IP66
UV Stable	Yes

Part Numbers:

RNLL1263-0812-10-K	8" Engine Room Light
RNLL1263-1512-10-K	15" Engine Room Light
RNLL1263-3012-10-K	30" Engine Room Light

Part Number End Cap Description

RNLL-SS-CAP Decorative Stainless Steel End Cap

810-00247 Decorative White Plastic End Cap
(For use in wood & fiberglass only)
