

LIGHT YOUR WAY

Simple beauty with uncomplicated lines and built-in switch; the Rana LED Task Light was designed to look simple and sleek but delivers high quality, energy saving LED light. Three mounting options including a magnet mount undercabinet, clamp mount, and desk top version provides placement options to suit the specific workspace. The high intensity LEDs produce a high Color Rendering Index and the 3500 Kelvin color pool of light is ideal for tasks that require clean, clear light. LEDs are known for their long life and Rana's provide over 50,000 usable hours of light and it boosts Mercury and Lead free manufacturing processes that also reduce the environmental impact.

Rana's polished acrylic lens coupled with the most advanced LEDs with full dimming capabilities, give this sleek, small footprint design an edge up on the task light competition. Engineered for durability and extensively tested Rana will provide years of efficient, maintenance free service.

Part Numbers

- 69D250 | Table Base - Brushed Nickel
- 69D256-NI | Undercabinet Mount - Brushed Nickel*
- 69D256-WH | Undercabinet Mount - White*
- 69D255 | Clamp Mount*

Product Features

- Sleek contemporary design to compliment any interior
- Pivoting head provides custom positioning for perfect illumination levels
- Push button on/off operation
- Full range dimming
- Available in brushed nickel or white (undercabinet only)
- Power saving LED technology
- High Color Rendering Index (CRI)
- 50,000 hour (20 year) LED life
- UL listed power supply
- Mercury, lead & UV free

Product Specifications

Housing Material	Aluminum plated
Lens Material	Clear polycarbonate
Finish	Brushed Nickel or white (special order)
Voltage	24V DC
Wattage	Low : 0.5W High : 4.6W
Current [@ 24V DC]	Low : 0.02 A High : 0.19 A
Lumens	Low : 43LM High : 490LM
Color Temp.	3500K
Footcandles	84 FC (on high at 16")
CRI	80+
Efficacy	106 LM/W (based on high setting)
