

Redwood™ Table Leg

INSTALLATION INSTRUCTIONS

Part#: TL5000, TS5020 & TS5003

PARTS/TOOLS NEEDED:

					
Table Base	Floor Base	Table Leg	#10 Phillips Oval Head Screws (not provided)	#10 Magni-Coat Screws (salt water base only)	Power Drill (Not Provided)

INSTALLATION CONSIDERATIONS

- To avoid a hazard to children, account for all parts and destroy all packing materials.
- Do not sit on or lean on table, intended for use as a table only.

1. Mount the floor base into solid floor structure (wood, fiberglass, etc.) using #10 phillips oval head screws.

If installing the floor base for salt water applications, only use the magni-coat screws provided with the base.

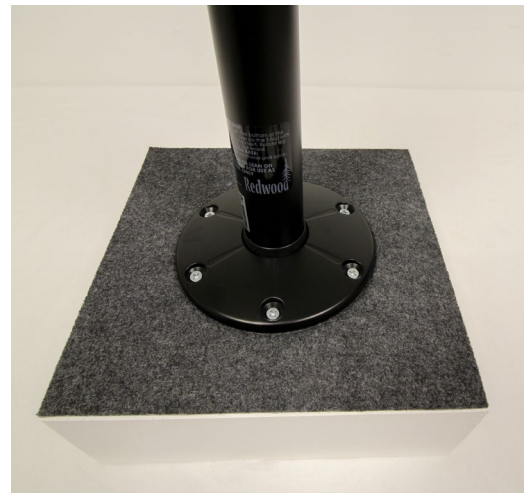

2. Mount the table base onto table top (customer provided) using #10 phillips oval head screws. Make sure the weight of the table top is evenly supported over the table leg.

The top of the table leg has a positive lock so the table will click in place.

3. To secure, slot the T piece into the base and rotate clockwise. Make sure the T-bolt is extended all the way down. To loosen, turn the leg counter-clockwise.
